

Generations Together

Your Vision and Plan for an Asset-Rich Community

This workshop is designed for communities that are **launching an asset-building initiative**, as well as those that have been involved in asset building for at least two or three years. It is designed for youth and adult participation, and provides a community with its own overview of achievements to date, as well as what work lies ahead. The facilitator will work with participants to assure that the event is tailored to each community's situation.

The workshop is an opportunity for leadership development for people of all ages. It offers knowledge about youth development and community change, and it enhances skills in leading community change on behalf of young people.

Key content:

- Learn how to celebrate youth as community assets.
- Understand Developmental Assets®—what they are, where they came from, why they are important, and what they look like in action.
- Create a vision of an asset-rich community for youth.
- Prepare and commit to action plans intentionally building an asset-rich community.

*“I really felt involved, especially as a student.
Being given equal ground was really valuable.”*
—Workshop Participant
