

Powerful Teaching

Added Impact without Added Work

This interactive workshop is designed to enable **participants** to recognize and identify the asset-building they are currently doing as part of good teaching practice. It also provides tools, strategies, and resources to strengthen and expand their impact with students. Participants will leave affirmed, inspired, and ready to use every moment with students to create the conditions for optimal learning.

Key content:

- Understand Developmental Assets® framework.
- Identify the connection between building assets, improved academic achievement, and healthy outcomes.
- Examine instructional practices through the asset-building lens.
- Explore strategies for infusing assets into content areas and existing curricula.
- Explore resources for ongoing support.

*“I benefitted from the opportunity to share ideas.
The group interaction was very helpful.”*

—Workshop Participant

*“The whole day was wonderful! The trainer’s knowledge
and experience added richness to the discussion.”*

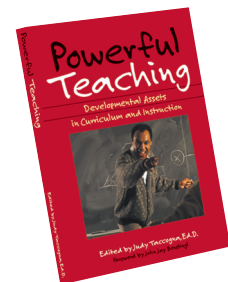

—Workshop Participant
