BUILDING DEVELOPMENTAL ASSETS IN SCHOOL COMMUNITIES

This workshop will describe the connections between Search Institute's Developmental Assets® and student achievement, show you how to build assets for every student and empower educators to initiate, increase and strengthen the asset-building efforts that already exist in their school. As a result of participating in this training, teachers, counselors, administrators and other education professionals will:

- Become familiar with the connections between the asset framework and academic success;
- Commit to forming and maintaining relationships with students that are mutually respectful, caring and genuine;
- Commit to personally becoming an asset builder for the youth in their school and life; and
- Begin creating a plan for operationalizing the Developmental Assets framework in their school communities.

"In my 25 years of teaching, I had never been to a training like this! It was truly amazing to see how one person can touch so many people."

"This training gave me and my teammates the chance to have wonderful conversations and formulate plans to implement changes."

"Excellent material and presentation - filled with engaging presentation, varied activities, and relevant examples."

Also Available as a Training of Trainers event.
