

ENGAGE the community and GET THE WORD OUT!

ESSENTIALS OF ASSET BUILDING

TRAINING OF TRAINERS

Don't miss this opportunity to build capacity to spread the asset message

Build a cadre of trainers that can effectively deliver two core Search Institute workshops. Each workshop may be used alone or as a series based on the you needs in the organization or community. Learning to deliver these two workshops spread the asset message further, faster, and easier. The use of local trainers can also significantly reduce the costs of providing ongoing training events.

Participants in this workshop will be trained to successfully deliver:

- Everyone's an Asset Builder—a 4-hour training that introduces the developmental asset framework and invites participants to become asset builders in his or her personal and professional lives.
- Sharing the Asset Message—a 4-hour training designed to help asset advocates effectively deliver a variety of asset-building messages to multiple audiences.

Participants receive a Contact Hour Form verifying 14 hours of training completion and are fully prepared to deliver the two curricula in their own organization and community.

September 29 and 30, 2010
8:00 a.m. – 4:00 p.m. each day

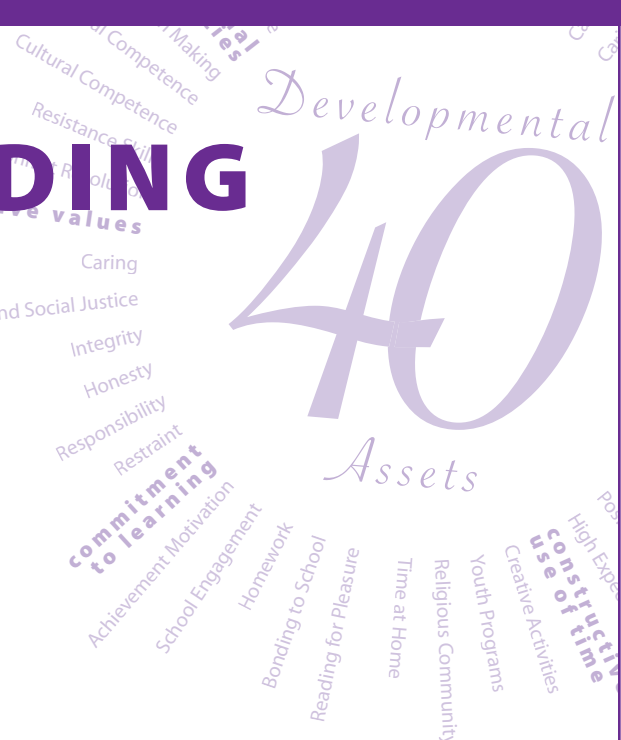

Southeast Regional Action Council Office

620 Norwich/NL Turnpike.; Uncasville, CT 06382

Tim Duffey, Training Presenter

Tim has worked with the Developmental Asset framework in various capacities since 1995, including coordinator of the New England Healthy Communities-Healthy Youth Network and currently as President of Vision Training Associates. His experience blends a strong background in the education sector with community-based youth development efforts based on the asset model in over 35 states and with international audiences in Canada, Australia, Scotland, Ireland and Great Britain.
