BUILDING DEVELOPMENTAL ASSETS IN SCHOOL COMMUNITIES

TRAINING OF TRAINERS

Train your own people to educate others about Developmental Assets®. Host a *Building Developmental Assets in School Communities Training of Trainers* workshop and build a team of teachers, administrators, and staff to share the assets within your school or community as part of their current job responsibilities. This newly equipped team will help you build enthusiasm and energy and spread the message further, faster, and easier without incurring the additional cost of individual training.

By participating in this workshop these trainers will be able to:

- Successfully organize and facilitate a one-day asset-building workshop for school staff called *Building Developmental Assets in School Communities*;
- Accurately and effectively field questions from participants;
- Reference and recommend resources that will help participants;
- Gain a deeper understanding of how to create developmentally rich school communities; and
- Verify 14 hours of training through a Certificate of Participation.

“A very well designed TOT (and I have been to many). This was one of the best delivered by an engaging and empathetic trainer who inspires by modeling everything he stands for. Thank you!”
