INCREASE KIDS’ STRENGTHS BY BUILDING DEVELOPMENTAL ASSETS

Search Institute Surveys
In a world driven by data, Search Institute surveys help organizations go beyond test scores and attendance rates to paint a broader and deeper picture of young people’s lives. One of our top-selling youth surveys is the Developmental Assets Profile (DAP). Since 2005, more than 500,000 young people between the ages of 11 and 18 have taken the DAP, making it one of the most widely used instruments in the world for measuring the internal strengths and external supports that influence adolescents’ success in school and in life.

Through a new partnership with nFocus Solutions, the Developmental Assets Profile is now available as a web-based survey. Many organizations have already taken advantage of this new tool to get a more complete picture of young people’s lives. One of our top-selling publications, The Developmental Assets in Middle School, provides a broad picture of how middle school students are doing, and presents ideas on changing the lives of young people.
